TWO BIG SHOPPING DAYS

October 7th. and 8th.

CROSSFIELD'S SECOND ANNUAL EVENT

SHOPPING DAYS.

The merchants of Crossfield are offering exceptional values in these two days, a look over their special advertisements will appeal to your sense of values; even this will not tell you all, as space is too limited to enumerate all they have to offer you in money-saving bargains.

Come to Crossfield on these two days and fill up on the feast of extra good savings prepared for you by the merchants co-operating in this great event. This is not all they have to offer, as you have an opportunity to procure a beautiful Mantle Chime Clock or a pair of Heavy Wool Blankets. With every purchase of 50c value you will receive a ticket to participate in the draw on the clock and for every \$1.00 received on account you will be given a ticket on the blanket. The more you spend, the greater your opportunities. These good-will offerings are on display at Bannister's Electric Shop.

The merchants co-operatively have made this good-will gesture possible. They were more than pleased with your response to their effort inaugurated last fall and appreciate your patronage and loyalty, and hope to merit the same on this, their second big effort, and with your kindly co-operation and good will, to make it go over bigger than ever.

On Saturday evening there will be a big dance in the U.F.A. Hall, and during the evening the fortunate possessors of the Clock and Blankets will be announced.

The last ticket on these beautiful premiums will be issued at 10:30 Saturday evening, October 8th.

BOARD OF TRADE.

The Board of Trade is behind the Retail Merchants in their endeavour to make the Shopping Days an Annual Festival. This being their second festival, we feel they merit your support and patronage.

The merchants supporting this proposition have made special efforts to make this outstanding in every way, by offering the people of the district exceptional values in dependable and quality merchandise.

Let us give them hearty support.

The Following is a List of the Merchants and Donors Who Have Made This Event Possible:

Atlas Lumber Company Limited, Lumber and Coal.
Ballam's Grocery, H. R. Ballam, Prop.
Bannister Electric Shop, H. A. Bannister, Prop.

Local Softball Girls Sponsor Balloon Dance

The local Senoritas are sponsoring a Balloon Dance, to be held in the Crossfield East Community Hall on Friday, October 7th.

A six-piece orchestra has been employed to provide the music, besides prizes and novelties to complete this grand dance.

The ladies are asked to provide lunch, and, with the enthusiasm and interest of the crowd, a real good time will be enjoyed by all.

Overturms Car.

Driving at a good rate of speed, E. Bills found that he was unable to make the Ainscough corner, six miles south east of Crossfield, when he overturned.

Fortunately Mr. Bills was in the car himself at the time of the accident, but was unhurt.

The damage done is estimated at approximately \$350.00.

Greetings From Board of Trade

As you will see by this edition of the Crossfield Chronicle, the Board of Trade is supporting the two shopping days on Friday and Saturday, October 7th and 8th.

A cordial invitation is extended to all residents of the district to visit Crossfield during this event and take advantage of the special values which the merchants and other business houses will offer.

Special arrangements have been made for the illumination of the main street for this event.

Blow Madden Safe; Get \$700 in Cash

City and Royal Canadian Mounted Police Wed. were on the lookout for two men suspected of blowing a safe at Madden Monday night and stealing \$700 in cash.

The men broke into the combined general store and post office of W. Tidball, knocked the dial off the safe and punched out the combination.

Police throughout Southern Alberta have been ordered to keep a sharp watch for two men seen in the Madden district around the time of the robbery.

Despite Last Minute Efforts British Public Feels War Almost Inescapable

Thousands of Reserves, Volunteers Work Through Night Preparing Bomb, Gas Shelters While Parliament Prepares for Momentous Special Session

Calm Today Before Storm?

From the Calgary Herald, Tuesday, September 27th.—London—The rush of the world-shaking events has slackened today in Europe, though war preparations continue grimly and unceasingly.

A Glimmer of fresh hope has been roused in Britain by Chamberlain's statement issued in the early morning appealing to Reichsfuehrer Hitler to take what he is offered of Czechoslovak territory peaceably. In France this is regarded as virtually a fresh proposal to the dictator which it will be madness on his part to ignore.

However, in Britain the majority of people have become convinced war is all but inescapable and the whole country has roused itself to face the danger. The historic parliamentary session tomorrow will show the nation as determined as in 1914.

All night intensive work on defences against poison gas, high explosive bombs and other horrors of modern warfare has proceeded without intermission.

Miles and miles of underground shelters and trenches are in course of excavation in every city.

London parks are beginning to look like those of Madrid and Barcelona.

Coastal batteries and air defences have been manned.

Great searchlights pierce the foggy night sky.

Groups of anxious mothers wait at school doors to learn preparations for excavating six hundred thousand London children to billets already prepared for them in the country.

Forty million gas masks are about to be distributed.

Thousands of families are digging (continued on page two, column 3)

CROSSFIELD, ALTA, THURSDAY, SEPTEMBER 29, 1938.

Home-Shopping.

Once again, through the courtesy of the Crossfield merchants, the public is encouraged to shop at home.

We realize that the cities have a drawing that would be hard to explain, but once a year local merchants should be given the benefit of a good share of the sale of merchandise which is purchased for consumption in this district.

We would encourage shopping at home, "Keep the Home-Fires Burning," with those who appreciate your business, and do all in their power to maintain it.

If local merchants were given a larger volume of the business of this district, it would be possible for them to bring carloads of merchandise into town, thus enabling shoppers to purchase their requirements at city prices and we could all sing, "Home Sweet Home."

With the bountiful harvest granted this district, those who have been deprived of certain things, will be able to have them and, if purchased at home, the local business men will be able to have things they have been deprived of for many years

Missing-Letter Contest.

As last year, we, the Crossfield Chronicle, are putting on a "Missing Letter Contest" so as to induce the shoppers to read the advertisements of the merchants who are endeavouring to keep shoppers in their own town, where bargains galore will be on display and worth while taking advantage of.

Read all the advertisements and when you have found enough missing letters to spell "Shop in Crossfield," you have a chance to win a prize.

Again, we are giving a year's subscription to the Chronicle or a dollar and fifty cents in trade at any of the local stores in the

Community Hospital.

Plans are well under way to have a community hospital in Carstairs. The Munro residence is an ideal spot and the brick building is a suitable size for a hospital.

Although it would be very handy to have a hospital in Crossfield, we feel that, as there is such a suitable building available for this purpose, and that Carstairs is still closer than Calgary or Didsbury it would be quite convenient to meet the representatives of which there are four, two from Carstairs and one from each of the municipalities, (Rosebud and Beaver Dam) look further into the matter and perhaps some fine arrangements could be made

We understand that there would be no increase in taxes, so what is to hinder us having a share in a hospital, even though it is in the next town?

Memorial Fund Rising.

We notice by the War Memorial Fund thermometer, in T. Tredaway's window, that more donations have been received.

Of course, more money is required to begin to erect this long-planned cairn, and we hope that it will be available after the harvest season, so that building may commence in the early spring.

shopping carnival for the first correct solution drawn. For the second correct solution drawn, we will give a box of fancy stationery

The draw will be made on the evening of Thursday, October 6th, so answers should be in our hands by Wednesday, the 5th, at 6 p.m.

Read all the ads on the two inside pages of this paper and find the missing letters, and you have a good chance to win a prize.

garden trenches as refuses against splinters and blasts from high explosives.

Factories are drilling workers in first aid.

London docks have been ringed by guns and underground shelters provided for fifty thousand dock workers.

A Good Editor.

A good editor is one who has never made a mistake; who is always right; who can ride two horses at the same time he is straddling a fence with both ears to the ground; who always says the right thing at the right time, who always picks the right horse as well the right politician to win; who never has to apologize, who has no enemies, and who has worlds of prestige with all classes, creeds and races. That is all an editor has to do to be rated a good editor. There has never been a good editor.—Brooks Bulletin.

We can add one to this; Sit flat on the floor and hang his feet down

Fall Suggestions For Insect Pest Control

The following Suggestions have been issued by the Field Crops Branch, Department of Agriculture, Edmonton, GRASSHOPPERS

1. Continue to spread poison bait if available to kill adult grasshoppers while laying.
2. Shallow fall cultivation.
 - (a) Loosens surface, grasshoppers will not lay eggs in loose soil.
 - (b) Exposes eggs on the surface to sun and wind (See note below on Cutworms).
3. Deep plowing buries the eggs so that the young hoppers cannot reach the surface. This practise is not recommended where soil drifting is prevalent.
4. Mark areas where eggs are laid and watch next spring. Remember that grasshoppers lay their eggs from about the end of July until frost comes. A single female will lay about 150 eggs during this period. Every female grasshopper destroyed this year means less damage next year.

CUTWORMS

(Pale Western) Do not cultivate summer fallow between August 1st and September 15th, because cutworm moths only lay eggs in loose surface soil.

NOTE: where both grasshoppers and cutworms are present, delay fall cultivation until after September 15th.

WHEATSTEM SAWFLY

Shallow cultivation of stubble destroys Wheatstem Sawfly grub which winters over in the base of the wheatstem. This can be done any time before freeze-up.

Business goes where it is invited and stays where it is made welcome.

The Junior Livestock Club

Now is the time to be looking around for good calves for next year's show, and we can only repeat the advice we have been giving right along, pick a thick blocky calf, not too old or too big, because this is supposed to be a Baby Beef contest, the weight limit of which is around 850 lbs. and the judges in the future are going to give the advantage to the calves being nearest the required weight, the big ones will be penalised.

The result of the judging competition found the members in the following order: C. Riddell, W. Harrison, E. Havens, J. Harrison, C. Johnson, M. Shand, A. Priest, Loy Robertson, N. Simpson and G. Shand.

The prize-money for this event is \$3, \$2, \$1, and 50 cents each for the other seven, and the two top boys will get their chance in the Provincial finals to be held later.

Remember, NOW is the time to be thinking of the next one and your secretary will always be glad to help in any way he can, even to financing the purchase of calves for those who are unable to do so themselves.

The World of Wheat

By H. G. L. Strange

"Where can I obtain a large quantity of reasonably good seed of the variety I want? I cannot afford to buy Registered or Certified seed for the two or three hundred acres that I shall sow."

I am receiving many queries like this from farmers who desire to change to a new variety over their whole farm.

My advice to those who require a large quantity of good seed and of good quality, is that they should enquire from their Elevator Agent for the names of their neighbours whose samples graded an "A" this summer in the "Crop Testing Plan" plots.

"Crop Testing Plan" 'A' stock is true to variety to a good standard of excellence; and passing the test "A" is becoming more and more recognized as a mark of good seed; moreover, farmers who have stocks in their bins which graded "A" are usually willing to sell to their neighbours for a very small premium.

This year's "Crop Testing Plan" work revealed about ten thousand farmers in the West who had "A" stocks of Thatcher, Renown, Apex, Red Bobs, Garnet, Reward or Marquis.

Such "A" men, by selling to their neighbours, are certainly helping to improve the welfare of their fellow farmers.

Memorial Window For Banff Church

Inspired by the beauty of the Canadian Rockies, and the sweet tones of the bells of St. George Church, Banff, Alberta, Miss Jessie Van Brunt of Brooklyn, New York, has presented the church with a memorial window which she designed and made herself. The window embodies the idea of the Church bells as angels or God's messengers sending inspiring invitations to worship. It was placed above the main entrance and is in memory of the late Canon Henry Montgomery, M.A., rector of this church from 1921-24, previously rector of St. Peter's Church, Kingsclear, N.B., and Canon of Christ Church Cathedral in the diocese of Fred-

erickton, N.B., also rector of St. Barnabas Church, Calgary. He served in the C.E.F. from 1916-18, being chaplain of No. 14 Canadian Hospital at Eastbourne, England. He died at 75 on July 9, 1929.

Rt. Rev. L. Ralph Sherman, M.A.B. Litt., D.D., Bishop of Calgary, recently dedicated the window.

The bells which inspired Miss Van Brunt were donated by Hon. Robert Brett, Lieutenant-Governor of Alberta in 1925, later being dedicated by Rt. Rev. Cyprian Pinkham, D.D., D.C.L., late Bishop of Calgary, in 1927. Rev. Canon Tully Montgomery is the present rector.

HOME CORNER.

The Country Faith
Here in the Country's heart
Where the grass is green
Life is the same sweet life
As it e'er has been.
God comes down in the rain
And the crops grow tall—
This is the country faith,
And the best of all.

HOME HELPS.

To rid the frying pan of the smell of onions or fish, fill the pan with cold water, put over the fire, and when the water is boiling hot, drop in a few red-hot cinders. When the cinders have turned black, empty the pan, and wash. No smell will remain.

If you thread your needle before breaking off the sewing cotton from the reel, there will be no tiresome knotting or breaking of the thread.

Use a handful of salt when drawing a fowl, and you will get it clean with greater ease.

When house plants wilt in hot weather, give them a teaspoonful of Olive oil, pouring it on the soil near the stalks, just after watering. The oil acts as a tonic keeping the leaves fresh and green. Once a month is often enough for the treatment.

JOKES.

She has our sympathy

Sandy was learning to play the bag pipes. One night while he was strutting about the room, skirling for all he was worth, his wife attempted a mild protest. "That's an awful noise you're making," she said. Sandy sat down and took off his boots; then he got up and resumed his piping in his stockinged feet.

Ace (relating experience): "I had flown three miles over the German lines when I found that my engine was missing."

The Girl: "Meroy! How could you fly so far without any engine?"
